

Michael Martinez

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. A go-getter who is eager to complete goals and tasks, whether professional or business. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100dev | Remote

Jan 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Designed and built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management
- Maintained detailed Git history for all projects

Recent Projects:

CampGrounds (Fullstack Web App) – Users can create accounts and log in to submit campgrounds or review other campgrounds with comments. Users can upload photos and search existing campgrounds by name or location.

Mibrary (Fullstack Web App) – Users can log in to their profile and find books by name or by ISBN. Users can add books to completed or “want to read” lists.

Other Projects: Local beauty salon website, Bemidji StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer | Bemidji, MN

January 2020 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Maintain transparent and consistent communication with clients throughout the project duration. Also, consulted on SEO and social media strategy.

Positive Support Specialist at Lutheran Social Services | Bemidji, MN

January 2018 — December 2019

Assisted individuals with in-home care, teaching essential life skills and providing solutions to challenging behaviors
